OUR MISSION

Our mission is to enhance the quality of life of children, adults, and their families who are affected by severe medical conditions such as Cancer. Joseph's Experience aims to empower these individuals and students through effective action and leadership of trained volunteers. We encourage youth to become civic minded contributing adults. We are committed to enhancing emotional, social, and spiritual health through volunteerism, social interaction, community gardens, and life skills education.

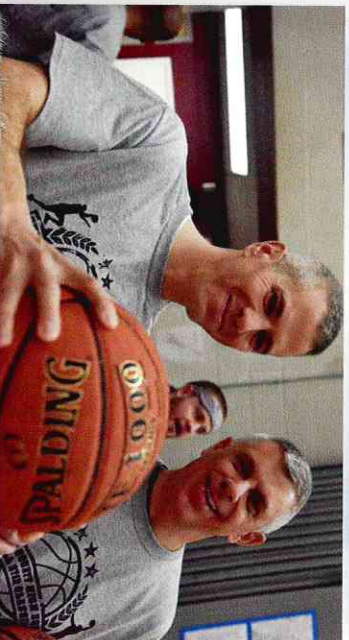

Primarily, Joseph's Experience aims to support children who are afflicted with Cancer and Leukemia. Our goal is to expand our service base to anyone who has battled Cancer et al. or been affected by the experience of a loved one or a loss as a result of this suffering. We also aim to honor veterans, EMS, & law enforcement.
